

FM400 SERIES

There is a Nilfisk machine for every floor cleaning application

Plug holder

Ergonomic handle, with smooth round edges, for greater comfort, easier operation and less fatigue

Cable hook

The most complete range of floor machines ever

Designed for easy operation and operator comfort

Every floor has its own individual characteristics, and caring for a floor in a professional way means having the right machine to suit the needs of the job. That's why this range of single disc machines from Nilfisk- Advance is important. Never before has there been such a complete selection available from a single source.

Machines for light-duty use, everyday cleaning and real heavy-duty work. Whether the demand is for scrubbing, polishing, spray cleaning, stripping, burnishing or bonnet mopping, there is a unit here for you. And knowing that it comes from a global leader in professional cleaning equipment, you can be sure that reliability, easy operation, durability, safety and ergonomics are built in as standard. For us, quality is a way of life.

Every floor has its own individual characteristics, and caring for a floor in a professional way means having the right machine to suit the needs of the job. That's why this range of single disc machines from Nilfisk- Advance is important. Never before has there been such a complete selection available from a single source.

Machines for light-duty use, everyday cleaning and real heavy-duty work. Whether the demand is for scrubbing, polishing, spray cleaning, stripping, burnishing or bonnet mopping, there is a unit here for you. And knowing that it comes from a global leader in professional cleaning equipment, you can be sure that reliability, easy operation, durability, safety and ergonomics are built in as standard. For us, quality is a way of life.

The large wheels make it possible to move the machines over thresholds, steps and up and down stairs

Reliability is also our mantra when it comes to service

A Nilfisk machine functions optimally when cared for by regular service and maintenance visits. Therefore we have created the optimal service solution: three levels of service reflecting different requirements and an optional supply of a substitute machine in critical situations.

Service Solutions Standard – Professional maintenance

Your contract encompasses two yearly maintenance visits and 48 hours response time. Breakdown visits and spare parts are billed separately.

Service Solutions Plus – Optimised performance

With the Plus solution you have a firm grip on your maintenance and repair costs while knowing that your performance is never compromised, only optimised.

Service Solutions Premium – Maximised uptime

If uptime is your absolute top priority and key concern, Service Solutions Premium is the best choice. A quarterly maintenance visit is included, and there are no sudden financial surprises.

Ergonomic handle with soft grip →

Robust aluminium handle →

Lightweight and easy to operate →

Large wheels →

← Handle and operation position lever

← HEPA filter available (FM400 H & FM400 D)

← Easy click on/off system to install padholder/brush

← Brushes, brooms and squeegee can be replaced without tools

← Full metal frame gloss painted

Technical specifications
